

THE GLEICHEN CALL

VOLUME XXXVI NO. 44

GLEICHEN, ALBERTA, WEDNESDAY

JANUARY 19, 1944

SUBSCRIPTION \$2.00 PER YEAR

Fire Wipes Out Cluny School House

Fire completely destroyed the Cluny school early last Thursday morning. It was about 3:30 a.m. when the blaze was discovered and was so far gone little could be done to save anything.

The school which consisted of two school buildings moved in from outlaying districts and joined together with an additional room, was not completed but was being used as a school.

The loss of the school building is \$15,000 and was well insured. A lot of books, desks and a large number of new typewriters were lost. Chas. Thompson, the local building contractor, was very busy with the construction of the new building lost about \$100 worth of tools.

At the present time school is being held in Herman Hall and it is the intention to build a complete new school at a later date. Cost of the fire is unknown.

EMPLOYERS MUST CHECK ON THEIR MALE EMPLOYEES

Hon. Humphrey Mitchell, minister of National Resources, recently issued an order in which he called upon the Minister of Labor to issue an order which will require all employers of male workers to examine the status of employees of military age, 17 to 30, to make sure that they have complied with Selective Service Mobilization Regulations. The term of service will include Dismissals, Provincial and Federal governments as well as business concerns and also will include farmers, even where the employee is a son or other relative of the farmer.

The order of the minister, D.M.R.C., for under the Order it is understood, is to ascertain the condition of the men in the country of a few weeks when the necessary arrangements have been completed to assist employers in making the necessary survey. The order will set forth the dates between which employers are to check on their employes.

It is the hope that through this survey any man who may be delinquent in regard to the military call-up, will be located so that their cases may be dealt with.

The Labor Minister points out that no action on the part of employers is necessary until the formal order is issued. All male employes should, in the meantime, provide themselves with copies of any documents they need to prove that they have not failed to comply with mobilization regulations. A warning in this regard is given to the department of labor sometime ago to make persons in the employment aware.

THE WORLD OF WHEAT

THE VITAL THING NECESSARY

Many schemes and plans for so-called rehabilitation of agriculture have been proposed, and implemented, committees and study groups are now looking into these matters. Some of the proposals would help, to some extent, on one side of the coin, the vital thing, however, is that is necessary for the after-war welfare of our prairie farmers is that we shall have foreign markets for all the wheat and other farm products we can grow. These world markets are available should there be no surplus to be taken down on markets, and so the price of agricultural products would be fair and reasonable.

The only way to get Canada to remove the existing obstructions to trade such as tariffs and custom duties which prevent goods coming into Canada from foreign countries, all the other people can make sufficient Canadian dollars with which to buy our surplus, footfalls and commodities, and which surplus they so badly need. For myself, I firmly believe that the most important other objectionable factor to trade, would be a move value to our farmers than all the reconstruction proposals made put together, good as they may be.

Sugar plantations of the Philippines and the Netherlands East Indies are still in enemy hands and there is a most vicious roset of sending sugar rationing.

Since the outbreak of war Princess Elizabeth, and Princess Margaret, have been working for victory in their aliments on the East Terrace of Windsor Castle. The East Terrace, which is about ten feet of a cricket pitch, is about the size of a cricket field which is about the size of a cricket

field, was open to the public on Saturday evenings. The Queen Mother will remember the magnificent show of flowers in beds laid out in a decorative pattern surrounding the central fountain. Today it has been turned into a garden.

Tom James Lide Bdr. in this unit,

Items From The Battery

(By Battery Reporter.)

Muster parades for this unit are as follows: 14:30 hours 11 February at Husky; 19:00 hours 11 February at Basman; 20:00 hours 11 February at Gleichen.

The representatives of the District Paymaster will therefore make a flying trip on Friday February 11th, and finally end up at the Armouries in Edmonton. The unit is hoping the roads and weather are as good as it has been so far this winter.

Two training sites were shown at the Armouries on Monday night's parade. Capt. House kindly supplied his projector and everything was wonderfully clear. The boys particularly liked the commando stuff. More of these will follow.

Tom James Lide Bdr. in this unit, returned from Saskatoon as a full fledged L.A.C. He gets a good hold day before he reports for further training.

UNITED CHURCH OF CANADA

Gleichen charge, Stanley R. Hout, B.A., B.D., suppl., Strathmore. Services conducted on the 2nd and 4th Sundays of each month.

Services on Sunday evening at the Lord's Supper, 11 a.m. Arrowwood; 2 p.m. Cluny; 4 p.m. Gleichen.

women sit on Local Board Posts.

Some 6,207 members of the armed forces discharged from service were placed in employment by Selective Service in November, the total since April 1st being 78,386. The Canadian Legion, in its 50th year, has aided 52,600 veterans of the first Great War got the same service. These were not all permanent jobs, of course, but included occasional and seasonal work.

Some 1,000 individuals interested in the same subject is the unemployment assistance to pensioners of the First Great War hit an all-time low in November, 119 getting aid, compared with 1,200 in October, 1939, when 5,638 received \$12,394.

The 1941 census figures now reveal some significant trends. In that year Canada had 174,767,569 acres of occupied land, an increase of over 100 million acres since 1931. The amount of land under crop was over 55,000,000 acres, a reduction of two million; pasture increased a little; summer fallow upped a third to 23%.

Mr. G. A. Stoltz is having the northern part of the province to visit her parents for several weeks. When she returns she expects to take up residence in the house recently vacated by J. DeBoel and owned by W. J. Johnson.

Mrs. Hogan of Saskatchewan was at present visiting her daughter Mrs. Lila.

Town & District

Born on January 7 to Sgt. and Mrs. L. Woods a son, Darcey Laurence, (Little Twigs.)

Mrs. Bell, 122 Main Street, gave birth Wednesday, Jan. 10, to resume her schooling after being home for sometime looking after her mother who has been quite ill.

It begins to look as if we will not have irrigation this year with a little over 20,000 acres signed up of the 45,000 required. It is going to be too bad for the whole district if the new irrigation fails through.

Word has been received that a former resident of Gleichen, in the early 1920's Mr. and Mrs. Corinell of the Von Archdeacon family, moved away in her 82nd year at Penitentiary B. C. last September. Archdeacon and Mrs. Corinell moved from Victoria to Penitentiary in 1941 on account of their age. They were married 55 years. The Archdeacon is now retired at Penitentiary.

Last week we published the by-law covering curfew and now there is no excuse for anyone not understanding it.

CARROTS AND CANCER

Carrots contains the salts of calcium, potassium and phosphorus. These salts are in such combination as to be easily assimilated by the blood. Indeed it is said that a few minutes after taking carrot juice more salt passes into the system than does the salt necessary to the body. They also increase the alkaline balance of the blood.

Carrots are probably the best sources of vitamins and contain Vitamin A, B, C, D, G, and E. Other valuable constituents include insulin-like substance and a hormone-like ferment called tokumin.

These various substances combat acidic conditions, bring all bodily functions back to normal, and have a very definite antiseptic action on the intestines, tending to prevent putrefaction within the body.

The excellence of carrot juice as a source of vitamins A and C is explained by its wealth with Vitamin A. Vitamin A has been called the anti-scorbutic vitamin, and it has as its specific function the roasting and correcting of all secretions of the skin and mucous membranes which line the nose, mouth, skin covering the mucous membranes and all the glands. Vitamin A is considered one of the main elements in a basic way to protect against all infections. A writer says: "To boil carrots is to do violence to them. Vitamin A is made available in carrots as a tribute to the humble carrot. There is no doubt that vitamin A has far-reaching functions at all ages and conditions, helping to protect the body from disease, especially through promoting a vigorous healthy condition of the body."

In this article the function of vitamin A in protecting the so-called epithelial tissues was noted. Carrot juice is the scientific name for true cancer juice makes its appearance in these epithelial tissues. It can only make its appearance we have learned, when the tissue is defective. Inadequate nutrition is a primary cause of cancer.

As a protective agent the epithelial tissue would tend to the foundation for cancer. And because cancer is an affection of these tissues which vitamin A largely protects and restores, it is logical to assume that it has a place of importance in cancer therapy. It would appear that in the treatment of cancer steps should be taken to correct accidents of the blood and tissues, and to promote high blood pressure, as well as a highly effective agent for this purpose.

Because of the large amounts of indigestible fibrous material present, it is impossible to eat enough of the raw vegetable. The juice must therefore be drunk from a glass by grating.

When grating carrots do not wash them, but do not peel or scrape. Place grated carrots in a clean cheese cloth and wring out. You will be surprised at the large amount of fresh delicious juice you will obtain in this manner. Approximately four pounds of carrots make a quart of juice. Carrots must be used raw, not cooked, as cooking destroys the active principles.

When grating carrots do not wash them, but do not peel or scrape. Place grated carrots in a clean cheese cloth and wring out. You will be surprised at the large amount of fresh delicious juice you will obtain in this manner. Approximately four pounds of carrots make a quart of juice. Carrots must be used raw, not cooked, as cooking destroys the active principles.

Thanks!

A New Year commences, and to our customers throughout Canada go our sincere thanks and appreciation for the co-operation shown during 1943.

Inevitable changes have gradually been made in our Mail Order Catalogue. As our country grows, so does its demand for foodstuffs many items which were once staple items are no longer available—more commonly, however, have been placed on goods available for civilian consumption—delivery dates in some cases have been unavoidably held up.

It is your understanding of these conditions which has done much to lighten the difficult job of serving Canadian Farm homes in wartime.
